

1-6-8 PAI GOW POKER

...with More Ways to Win Big!

1-6-8 Pai Gow Poker is traditional Pai Gow plus an exciting new side bet, and a player friendly no commission option. 1-6-8 Pai Gow Poker is also all digital which means no more cards to buy or shufflers to lease and a new level of flexibility, security and productivity not possible on a felt table. Training is easy, because the hands can be automatically set and resolved, so dealers can focus on delivering an exciting and fun table game experience! Playing 1-6-8 Pai Gow is fast, delivering three to four times the number of hands per hour of a traditional Pai Gow table.

1-6-8 Bonus Bet

In addition to the main bet, a player can place an optional 1-6-8 Bonus Bet. This exciting bet pays if the Dealer's seven-card hand is less than a pair. The poorer the Dealer hand, the higher the payoff. Plus, even if the Dealer hand is a pair or better and the Player hand is less than a pair the player is paid even money. It's like insurance for the player against receiving a poor hand.

There are six different bonus paycharts for the casino to choose from.

The Choice is Yours!

1-6-8 Pai Gow Poker is available on the DTS platform in a live chip or in a full virtual version. The standalone DTS-C live chip version gives you all the benefits of a fast, secure, digital game platform while still using traditional chips and a dealer. Or, go to the next level and play 1-6-8 Pai Gow Poker on the DTS-V all virtual platform, where both the cards and chips are virtual and you can be connected to your SAS backend system for player tracking and monitoring. Use bills or tickets to buy in with a table host and play fully hosted, semi-hosted or auto-host mode. Both platforms offer large 12-inch touch screen displays that provide the players with a great view of all the game action as well as their complete bank and betting information. When it's time to place a bet, a simple touch of the on-screen virtual chips allows the player to quickly make their desired wager. Friendly status graphics help keep the player updated on all the game play.

Faster and Easier to Manage... 1-6-8 Pai Gow Poker™

Offering More than Traditional Pai Gow Poker!

1-6-8 Pai Gow Poker plays just like traditional Pai Gow Poker where you are playing against the Dealer, each trying to make the best possible two-card and five-card hand. Like felt Pai Gow Poker, once betting is complete, three dice are rolled to determine the beginning deal position. Seven cards are dealt to all positions and burned if the position is empty. Only 1-6-8 Pai Gow Poker offers the 1-6-8 Bonus Bet and the option to waive the 5% commission. Setting your two hands has never been easier. You simply peek at your seven cards and select the two cards you want in your low hand. If you're satisfied with how your hands are set just touch Confirm Set. If you are unsure if your hand is set correctly you have the option of touching the House Set button (if enabled) which will automatically set your hands according to the House Set rules. The Dealer's hand is also automatically set according to the selected House Set rules. 1-6-8 Pai Gow Poker has four of the most popular House Set rules to choose from.

1-6-8 Pai Gow Poker... delivers a fast, fun table game experience for the players and more revenue for the casino!
