

...played on *the Ultimate* Electronic Table Game Platform

# Texas HOLD'EM XTREME

## ◆ New Stand-Alone X Platform...

incorporates all the cost savings and security of our hosted digital table system. The X-Table's modular design allows for eight players; each with their personal screen, bill validator and ticket printer. The DTS-X is fully network compatible and compliant with SAS enabled financial tracking systems.

## ◆ Virtual Cards and Chips...

look and play like the real thing. Large 15" touch screen displays and player activated card-curl peeking feature

allows players to easily look at their down cards while keeping them hidden from other players. On-screen virtual chips represent each player's current bank total as well as the current amount of any bet or combination of bets placed. When it's time to place a bet, call or fold, a simple touch to the on-screen buttons allows the player to quickly make their decision.

◆ **Giant Center Display...** provides the players with a great over-all view of the game action. All player decisions and bets are shown on the center screen with live-action virtual chips and community cards.

## How to play...Texas Hold'Em Xtreme

Straddle bet is offered if the player is eligible. Big and small blinds are posted according to game rules.

Players can peek cards. When it is a player's turn, the decision panel shows.

Players can track table action in between turns with table map view.

Player makes decision after Flop. Decision buttons automatically show minimum bet/raise and all-in amounts.

Decision panel comes up at each stage of game if the player has not folded.

Results are shown on table map view. If player wins, the amount of winnings is indicated on screen. Players can muck or show cards.

If the player folds, they have the option to Chase the Rabbit.

Decision panel calculates effect on Chip and Reserve Balances and enables the player to confirm or cancel out of Chase the Rabbit.

**Texas Hold'em Xtreme...** is traditional Texas Hold'em at its best. Now the novice and experienced player alike can enjoy the fast-paced excitement that is Texas Hold'em Poker. Our extensive Info/Options screens explain the game in detail and allow for players to set personal options, Call Attendant or to Sit Out. Running tournaments is as easy as flipping a switch! Casinos can preset tournament settings ahead of time as well as save settings for multiple tournament choices.
