

...played on *the Ultimate* Electronic Table Game System

Four the Money is simplified Craps at its best! In addition to offering the feel and excitement of Craps, Four the Money on the DTS System offers a true table game experience while outperforming any felt style craps table, hands-down.

Four Rolls, No Seven, You Win... plus Four Exciting Side Bets!

Players bet virtual chips, choose their own lucky dice cup and roll the virtual dice. By placing a **Four the Money** bet and three, subsequent **Come** bets, players can win after every roll if no seven is rolled. Plus, there are four exciting side bets to play: **Any 7, All Tall, All Small and All or Nothing.**

Fast, Fun and Secure!

Four the Money is now available on the DTS-V full virtual platform which can be connected to your SAS backend system for complete player tracking and game monitoring. Use bills or tickets to buy in with a table host and play fully hosted, semi-hosted or auto-host mode. Use AFT and go fully automated. The DTS platform offers the players large 12-inch touch screen displays that provide a great view of all the game action as well as the player's complete bank and betting information. When it's time to place a bet, a simple touch of the on-screen virtual chips allows the player to quickly make their desired wager. Friendly status graphics help keep the player updated on all the game play.

How to play... Four the Money®

Four the Money™ is a Craps style game using two six-sided virtual dice. Players select a bet type and simply touch their chips to place their bets (*see list of bet types below*). Once all bets are in, the next player in succession becomes the designated shooter. When the dice cup appears on the shooter's screen they can touch the cup to move it around the screen and initiate the dice roll or wait for the timer to expire which will automatically roll the dice. Once the shooter rolls, the status of all bets are updated or resolved automatically. The designated shooter continues to roll until they roll a seven. Players can now make additional bets or pull back any bets in between rolls (*according to the bet rules*) until the designated shooter rolls a seven.

Four the Money Wager - Pays 1 to 1: Based on the rule settings, a Four the Money bet may be required to be placed at the beginning of the game. It can also be placed again after every fourth roll. To win, the shooter must roll the dice four times with out a rolling a 7.

Watch the dice action on host screen!

Come Bets - Pays 1 to 1: Once a Four the Money bet has been placed, the player has the option of placing the next Come bet prior to every roll of the dice as long as no 7 has been rolled. The player wins each Come bet they place if they go the next four rolls without a 7.

All Small Bet - Pays 34 to 1: Betting all "small" numbers (2, 3, 4, 5, and 6) will be rolled before a 7.

All Tall Bet - Pays 34 to 1: Betting all "tall" numbers (8, 9, 10, 11, and 12) will be rolled before a 7.

All or Nothing Bet - Pays 175 to 1: Betting all numbers (2, 3, 4, 5, 6, 8, 9, 10, 11, and 12) will be rolled before a 7.

Any Seven Bet - Pays 4 to 1: Betting that a 7 will be rolled on the next roll. This bet can be placed prior to each roll.

Players can pick their own lucky dice cup!
