

T3 TRIPLEX TABLE SIGN ...from **DigiDeal**

• Animated stock or custom slide series or create your own banner!

• Large animated game logo and major game features constantly cycle to draw players to the table.

• Display and edit bet limits and currency symbols, plus "Table Closed" banner!

Three Signs in One!

1. T3's large center section displays a fully animated game logo. The game title and features are constantly cycling, grabbing patrons' attention and attracting players to the table.
2. The top banner area can show a slide series featuring the game's side bets and features or be easily edited by the operator to show a special promotion or greeting.
3. Across the bottom of the T3 is a bet limit display. Operators can quickly change bet limits by simply accessing the editing menu right on the screen. A simple swipe across the table limits area will display "Table Closed" for use when the table is not available for play.

Only the T3 features touchscreen technology allowing direct access to editing menus from the display itself. Access is password protected to prevent tampering. Casinos can create and upload their own slide graphics or use the text editor to type in special banner information. The T3 is available in English or Spanish and offers a large selection of currency symbols for use with bet limit amounts. The unit mounts easily on existing furniture and will work with both 120 and 220 voltages. Put the best face on your table games with the all in one...DigiDeal T3 sign.
